1930

VORWORT.

Der vorliegende Index soll vorhandene ähnliche Werke ergänzen. Darum kann er nicht wie diese eine einheitlich herausgegebene Quelle zugrundelegen. Er umfaßt 53 nach Charakter, Sprachschatz, Ursprung und Editionsschicksalen verschiedenenartige Rechtsaufzeichnungen, deren einziges Band darin besteht, daß sie für die Erkenntnis der vorjustinianischen Rechtssprache von besonderem Range und anderswo noch nicht — oder noch nicht vollständig — ausgebeutet worden sind. Die umfangreicheren unter ihnen gehören größtenteils zum Bezirk der germanischen Gesetzgebung des Westens. — Die Berechtigung eines solchen Unternehmens wird heute schwerlich in Frage gestellt werden. Über seine Entstehung und Richtlinien gibt der Vorbericht in der Savigny-Zeitschrift Rom. Abt. 46 (1926), 287ff. Auskunft. Der Index will den durchforschten Quellenkreis erweitern, nicht abschließen. Zu ferneren Ergänzungen bleibt die Bahn frei.

Der fehlende organische Zusammenhang zwischen den herangezogenen Quellen ließ an die Herstellung eines systematisch gegliederten Vokabulars von vornherein nicht denken. Eilbedürftigkeit und Anpassung an die verfügbaren Mittel gestatteten gleichfalls nur die Anfertigung eines reinen Wortindex als der vom einzelnen Sachforscher nicht nachholbaren unentbehrlichen Basis. Aufgenommen wurden sämtliche Wörter, und zwar in der Grundform, Verben in der ersten Person Singularis. Das subjektive Ermessen des Herausgebers sollte möglichst zurücktreten. Auszuschalten war es nicht. So ist das Bestreben darauf gerichtet gewesen, möglichst viele selbständige Stichwörter zu bilden und nicht bloß Adjektive und Adverbien, unregelmäßige Komparationsformen, die Präpositionen nach ihrem Casus gesondert zu bieten, sondern auch manche häufigen Verknüpfungen (*filius familias*, *res publica*, *usus-fructus*, *quemadmodum*, *omnimodo* usw.) als solche aufzuführen, und dies auch dann, wenn sie allgemein oder in der benutzten Edition in mehrere Worte zerlegt sind. In dieselbe Richtung weist es, daß z. B. *id est*, *ne-quidem* und namentlich die Verbindungen von *si* und *nisi* (z. B. *si non*, *si quidem*, *maxime si*, *scilicet si*) ungetrennt blieben. Solche vereinzelten Ansätze zu einem Vokabular wird der Leser begreifen und begrüßen. Vor Irrtümern bewahren ihn in solchem Falle Verweisungen am Kopf des beraubten Stichwortes (z. B. *si cf. si autem . . . ; fructus cf. usus-fructus*). Von der erstrebten Vollständigkeit wurden auch die Zahlen nicht ausgenommen; sie sind, wo als Ziffern überliefert, in Zahlwörter (*Cardinalia*, *Ordinalia* usw.) aufgelöst und, falls es für sie eine einheitliche Vokabel nicht gibt, in die mehreren Gliedzahlen (z. B. *quartus* und *decimus*) aufgeteilt. Aufgelöst sind auch alle Abkürzungen.

Das Verzeichnis der exzerpierten Quellen, das, auf steifem Papier gedruckt, gesondert beigegeben ist, läßt sich am besten handhaben, wenn es ungebunden neben dem Index liegt. Es enthält zugleich die für jede Quelle verwendete Abkürzung und die zugrundegelegte Edition. Wo aus äußeren Gründen (vgl. den Vorbericht) bei der Herstellung der Perikopen die italienische Ausgabe von Bavieria, Ferrini, Riccobono benutzt wurde, die selbst regelmäßig auf deutsche Ausgaben zurückgeht, wurden die Perikopen nach den deutschen Ausgaben durchkorrigiert. Weitere solche Revisionen wurden für Cs¹), GE und SS unvermeidlich, als während der Arbeit Küblers Neuedition dieser Quellen erschien, die bereits in den Korrekturbogen benutzt werden konnte.²⁾ Doch erstreckte sich hier die zeitraubende und nicht ungefährliche Revision regelmäßig nicht auf die Interpunktionen der neuen Ausgabe. Wenn die — moderne — Interpunktions im Index überhaupt eine Rolle spielt, so beruht das darauf, daß es sich empfahl, die Auffindung des gesuchten Wortes durch eine Unterteilung zu erleichtern, die — bei der Mannigfaltigkeit der Editionen — nicht nach Druckzeilen, sondern nur nach Sätzen vorgenommen werden konnte. Als Satz in diesem Sinne gilt jede Wendung, die durch eine andere Interpunktions als ein bloßes Komma von dem Vorhergehenden getrennt ist. Die Zahl des Satzes wird durch den beigefügten Exponenten bezeichnet.

1) Nicht verwertet wurde das im Nachlaß von M. Conrat enthaltene Wortverzeichnis zur *Consultatio*, das die Quellenstellen nicht nennt (Kantowicz, SZ. 33, 480).

2) Die Edition der UE durch Fritz Schulz (Bonn 1926) ließ sich nicht mehr einarbeiten.

Ein Index hat nicht Texte zu edieren, sondern edierte zu verwerten. Er muß der einmal gewählten Edition unbedingt folgen und kann abweichende Lesarten — wenigstens grundsätzlich — nicht beachten. Dies gilt auch dann, wenn die Edition (wie teilweise bei den sogenannten Leges Barbarorum) dringend der Erneuerung bedarf. Demnach erscheinen überlieferte Wörter, die der Editor nur im Apparat und nicht im Text nennt, im Index überhaupt nicht. Wörter, die der Text als nicht oder nicht sicher überliefert kennzeichnet, insbesondere verbesserte, ergänzte, eingeklammerte oder eingefügte Wörter sind — mit Ausnahme überliefelter Rubra — durch *Kursivdruck* herausgehoben. Unberücksichtigt blieben nur umfangreichere Ergänzungen und solche, die der Editor ganz oder fast ganz aus einer schon anderweit exzerpierten Quelle übernommen hat. Deshalb fehlen beispielsweise FV, PS und UD, soweit wir sie lediglich durch Cod. Just. oder Digesten kennen, während die aus der lex Bajuvariorum oder den leges Visigothorum restituierten Stücke des CE aufgenommen sind. PS-Stellen aus Co oder Cs stehen unter Co oder Cs; unter PS zugleich nur dann, wenn sie außerdem noch im Breviar, im Codex Vesontinus oder anderweit außerjustinianisch überliefert sind. Unberücksichtigt blieben ferner orthographische Besonderheiten, wenn sie Mißverständnisse kaum hervorrufen können und rechtshistorisch von geringerem Interesse sind (z. B. *exaustra* statt *exhausta*; *exegente* statt *exigente*; *inficior* statt *infitor*). Mehrdeutige Wörter, deren Sinn im Einzelfall nicht sicher zu erkennen ist (z. B. *cum* in PapB 17¹) sind unter Beifügung eines Fragezeichens mehrmals aufgeführt. Griechisch-lateinische Wörter stehen unter den lateinischen, wenn ihr Stamm lateinisch ist (z. B. *compensatevw*).

Kein größerer Index ist fehlerfrei. Am wenigsten der vorliegende, dessen Entstehung durch die geschilderte Nachvergleichung weiterer Editionen erschwert wurde und überdies darunter gelitten hat, daß in der Not unserer Zeit mehrmals bewährte Mitarbeiter zurücktreten und zunächst ungeübte ihre Stelle einnehmen mußten. Von dieser Diskontinuität der Arbeit zeugt noch eine Reihe von Ungleichmäßigkeiten, die nachträglich nicht durchgängig auszumerzen waren und die in der Hauptsache die Satzzählung betreffen. Von Cs, GE und SS war in dieser Beziehung schon die Rede. Weiter ist das die Interpretationenliteratur einleitende Wort „Interpretatio“ in IG und IH als Satz 1 gezählt, während es sonst überall mit R(ubrum) bezeichnet ist; umgekehrt gilt die Inschrift allenthalben als Satz 1 und nur in CW als R. Im übrigen hoffe ich die Versehen auf ein vertretbares Maß herabgedrückt zu haben. An der Hand der Korrekturbogen ist jede Stelle nachgeschlagen und überprüft worden.

Die dem Index zugrundeliegenden (Ur-)Zettel wurden (durch Ausschneiden, Kleben, Stempeln, Beziffern) von mehreren Damen in Freiburg i. B. unter Leitung von Frau Dr. Olga Hempel hergestellt. Gleichzeitig exzerpierten in Berlin die Herren Referendare Paulus Fabricius, Julius Wolff und stud. jur. Liesecke die aus dem Zettelmaterial des VIR zu übernehmenden Teile (vgl. Vorbericht). Aus den Berliner Exzerten und den nach Wörtern umgeordneten Freiburger Urzetteln verfertigten alsdann Frau Dr. Hempel und die Herren stud. phil. Max Schweigler, stud. jur. Hans Schraft und stud. phil. Maximilian Karger in Freiburg handschriftlich das druckreife Manuskript. Urzettel und Manuskript befinden sich in der Heidelberger Universitätsbibliothek. Die Gegenprobe im Stadium der Drucklegung wurde in Heidelberg durch die Herren stud. jur. Arthur Lauer und stud. phil. Anton Noë durchgeführt. Herr Geheimer Studienrat Professor Dr. Eduard Grupe lieh mir durch gelegentliche Stichproben seine freundliche Hilfe. Allen diesen Mitarbeitern für ihren hingebenden Eifer zu danken ist mir eine liebe Pflicht. Gesteigerten Dank schulde ich den zeitweise mit der Beaufsichtigung gewisser Arbeiten betrauten Herren Fabricius und Schweigler und Frau Dr. Hempel.

Finanziell gestützt wurde der Index durch freundliches Entgegenkommen der an den Editionen beteiligten Verleger (vgl. Vorbericht), vor allem aber durch mehrfache namhafte Beihilfen der Freiburger Wissenschaftlichen Gesellschaft und der Deutschen Gemeinschaft zur Erhaltung und Förderung der Forschung (Notgemeinschaft), welch letztere auch — neben dem Heidelberger Institut für geschichtliche Rechtswissenschaft — die Drucklegung ermöglicht hat. Dafür sei hier nochmals aufrichtig gedankt.

Heidelberg, März 1930.

ERNST LEVY.
